NETWORK UTILIZATION STATISTICS

Following are barcharts for Network utilization statistics for January and February 1991. The First shows statistics on the sizes of sent/received files, and the second shows number of sent and received records by each node. These statistics have been generated depending on the data collected at node TRMETU (i.e. traffic not passing through TRMETU is not shown).

METU-NET

This section of CCNEWS provides up-to-date information concerning the facilities and devices in our campus backbone network (METU-NET).

DEPARTMENTAL CONNECTIONS TO THE BACKBONE NETWORK (METU-NET)

Following is a list of departments with their networking facilities and protocols that are already connected to METU-NET as of May 1st, 1991.

COMPUTER CENTER	. BANYAN-VINES/386	TCP/IP, SNA
	. IBM-3090/180S	TCP/IP, SNA
	. SCO UNIX V/386	TCP/IP
COMPUTER ENGINEERING	. BANYAN-VINES/386	TCP/IP
	. Aviiion WS	TCP/IP
	. VAX 8250	TCP/IP
TUBITAK	. BANYAN-VINES/386	TCP/IP
	. Apollo WS	TCP/IP
	. Sun WS	TCP/IP
FACULTY OF ARTS & SCI.	. BANYAN-VINES/386	TCP/IP
FACULTY OF ECON. & ADMIN. SCI.	. NOVELL-NETWARE/386	SNA
PETROLEUM ENGINEERING	. NOVELL-NETWARE/386	SNA
MINING ENGINEERING	. NOVELL-NETWARE/386	SNA
AERONAUTICAL ENGINEERING	. BANYAN-VINES/386	
CHEMICAL ENGINEERING	. BANYAN-VINES/386
